

OUR CENTERS OF EXCELLENCE

OPTIMUM | PEOPLESOFT

CLIENT COMMENTS

“Optimum doesn’t just implement PeopleSoft systems...they truly provide PeopleSoft business solutions.”

— T. Young
Senior Director
of Applications

Informatica Corporation

WE KNOW PEOPLESOFT ENTERPRISE v9

Being on the cutting edge of the latest solutions is familiar territory for Optimum’s PeopleSoft Center of Excellence. It’s no wonder we’ve taken the lead with newest version of PeopleSoft Enterprise and become the leading implementer of v9.0 solutions – a claim few can make. Our confidence results from a rich history of HCM, Financials and Supply Chain implementation and upgrade successes and our longstanding, close relationship with the PeopleSoft Product Strategy and Development teams.

PEOPLESOFT SOLUTIONS TAILORED TO YOUR BUSINESS

Optimum has developed a deep understanding of the key enterprise business processes through years of work with clients across multiple industries. To each project we bring a combination of PeopleSoft product expertise and a thorough understanding of how to best implement PeopleSoft solutions to meet your business objectives.

SUPERIOR PEOPLESOFT PRODUCT KNOWLEDGE

Our decade of experience implementing PeopleSoft solutions, gives us tremendous

insight into the product’s capabilities and a vast store of diverse applications to draw upon.

BUSINESS PROCESS EXPERTISE

Underlying our product knowledge is a wealth of business process and best practice knowledge derived from years of operational and financial experience, which enables us not just to implement PeopleSoft systems but truly provide PeopleSoft business solutions.

INNOVATIVE IMPLEMENTATION EXPERIENCE

Since our highly successful work managing the first large-scale PeopleSoft financial and supply chain suite implementation, we have continued to lead cutting edge projects, including the first implementations of release 8.9 and 9.0.

DEEP PEOPLESOFT PRODUCT INSIGHT AND INNOVATION

Many of our past system enhancements have been incorporated back into the core products. Most recently, through working closely with the PeopleSoft product development teams, a number of our key version 8.x modifications are now incorporated into release 9.0.
